DETAILED ACTION

Claim Rejections - 35 USC § 112

1. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

2. Claim 1 is rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention. A phrase "connected to a parent plate via a connection part" is confusing because examiner uncertain whether a parent plate is a connecting part or used as truss member connectors. And also the whole paragraph 3; parts of paragraph 4 such as "a constrained pattern shaping press to"; "and a flat section being from a flattened pipe member as a single piece having width determined by the diameter of the pipe member"; "with the flat section and the flat section including respective transitional slack portions at both ends of the semi-circular boundary of the tubular section" they are all confusing. And the other claims have the similar issues.

3. Claim 5 is rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention. As discloses in the specification only a single a slack portion 11; however the applicant claims including "transitional slack portions" as in plural.

Allowable Subject Matter

4. Claims 1, 2, 5 and dependent claims 3, 8-10 are allowable if rewritten or amended to overcome the rejection(s) under 35 U.S.C. 112, second paragraph, set

Art Unit: 3635

forth in this Office Action. A final determination will be made when the rejection of the claims under 112 has been overcome.

5. No prior art of record shows truss elements having connecting plate formed by tubular pipe and a defining semi-circular boundary with the flat section including a slack portion as claimed, nor any motivation to do so.
